Spring Clamps: XCRU Ratcheting Clamps

Spring Clamps

XCR - Ratchet action clamps

- ❑ Spring opens the clamp when ratchet is disengaged.
- ❑ Clamping force is generated by squeezing the clamp closed.
- ❑ This clamping force is maintained by the ratchet mechanism.
- ❑ Ratchet mechanism - quick clamping action, quick release.
- ❑ Heavy duty resin construction.
- ❑ Soft pivoting jaws.

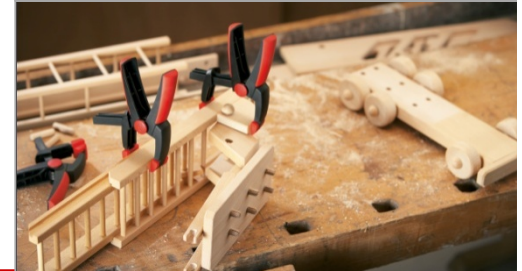

Spring Clamps

XCR - Ratchet action clamps

- ❑ XCRU clamps have step-over type jaws in two sizes;
 - ❑ XCRU3 has 2" throat depth & 2" capacity
 - ❑ XCRU5 has 4" throat depth & 4" capacity
- ❑ XCR-4PC is a package of 4 clamps of 2" capacity

Spring Clamps
