

Tools for the Professional **New!**

Professional Pliers

Designed with Tool Professionals to meet the demands of the most intense applications in the field. RIDGID's new pliers and linesmen tools are made in the U.S.A. and precision crafted and engineered for long service life and ease of use. The cutting edges and teeth are sharpened using a special process to ensure longer usable life. See why RIDGID designs tools for the most demanding of users.

Benefits:

- Professional quality tools, forged and heat treated for high strength and durability.
- Precision crafted and designed to assure exacting performance and extended life.
- Slip Joint and Tongue & Groove pliers feature a flush rivet design which provides a stronger tool and allows access to tighter areas.
- New 10½" Tongue & Groove pliers has v-notch profile for added gripping, and 8 adjustment arcs for extra capacity.
