Hi-Viz Cut-Resistant Goatskin Anti-Impact  
Drivers Kevlar® with Oilbloc™

#378HVKGVB

Goatskin has high tensile strength and abrasion-resistant properties. With smart styling and design, this drivers-style, glove is fully lined with a blend of Kevlar® and composite filament fiber, offering ASTM cut-level 4 protection. The brown goatskin hides dirt and is also treated with Oilbloc™. The back of hand and fingers feature full hi-viz nylon backs, hi-viz TPR impact protection with reflective cuff, fingertips and thumb for increased worker visibility on the job. Padded palms for vibration dampening. Our cut-and-sewn liner dons much more easily than a seamless knit, thanks to the fine tailoring.

Because of a high strength-to-weight ratio, our Endura® goatskin all-leather drivers are much tougher and more durable than their suppleness leads you to think.

Featuring an ID label to personalize your gloves to reduce loss.
