

New 84-TOOTH RATCHET Provides Better Access and Greater Strength

Taking the place of our top-of-the-line 60-tooth ratchet is the new and improved GearWrench 84-tooth ratchet, which provides even better access and greater strength. It features a fine tooth gear which reduces the return swing arc from 6 degrees to just 4.3 degrees for better access and also tests to 200% (+/-10%) of the ANSI specification for strength.

Just like the 60-tooth model, the new 84-tooth ratchet has a low profile head (21% thinner than the competition) and provides easy access in tightly confined areas. It has ergonomically designed handles available in chrome or cushion grip and a high-visibility bright chrome finish that is easy to clean. The new GearWrench 84-tooth ratchet is available in flex-head, offset, long-handle, and stubby varieties.

FINE TOOTH GEAR: 4.3° RATCHET ARC

Flush-mounted lever for On/Off Switch

Fine Tooth Gear: 4.3° Ratchet Arc

Low-Profile Head provides access in tight confines, up to 21% more access than the competition

Longer than most ratchets for added leverage

Available in Standard, Offset, Long, and Stubby Handles to accomplish any job

Bright, Chrome Finish provides High-Visibility, Easy-to-Clean

Handle style available in Full Polish or Cushion Grip

Available in both Fixed and Flex-head

GEARWRENCH®
