

## Dead Blow Hammers – Polyurethane

### PERFORMANCE

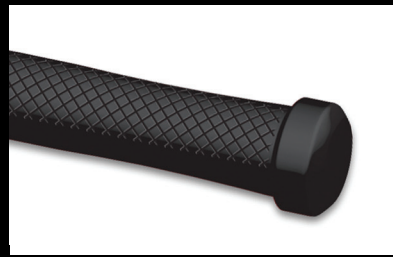

Dead blow hammers deliver excellent striking force with minimal rebound from the striking surface.

### STRENGTH

Steel handle welded to head assembly for strength and durability.

### PERFORMANCE

Textured rubber handle with flared butt-end for improved grip.

**GearWrench® Dead Blow Hammers** have steel shot filled heads to reduce rebound during use. The polyurethane cast head offers excellent durability and is resistant to cuts, splits, gas, solvents and cold temperatures.

### Strength

- Non-marring Polyurethane Head lasts longer than other styles of soft face striking tools.
- Polyurethane Head is resistant to cuts, splits and abrasions.
- Resistant to gas, brake fluid, anti-freeze and other solvents.
- Excellent cold temperature performance.

### Performance

- Steel Shot Filled Head for reduced rebound during use.
