## Ground Rod Driver 48-62-3070

Photos

### The Milwaukee Advantage

Drop Forged of high grade steel, this Hammer Iron is used by Utility companies to bury grounding rods in the soil. Internal diameter of the Ground Rod driver and capacity of the Hammer determine the size of ground rod able to be installed. One per package

### Features

Ground Rod Driver

3/4 inch Hex Shank

3/4 inch Hole

Made from forged high grade steel
