I love these. I bought them and they are so durable. Its cool to finally have drill bits I can put in my impact. I'm hard on my tools and finally have something that does the job.

**Comments about Shockwave Impact Duty™ 35pc Shockwave™ Drilling & Driving Bit Set:**

This bit set is simply the best. It will hold up driving into steel where DeWalt bits break over and over again. The standard #2 bits fit tighter than opher brands. I will never go back.

Comments about Milwaukee Impact Duty Scope Shockwave Drilling & Driving Bit Set  
I bought this set to use with my Milwaukee M18 Impact Driver because I know Milwaukee tools to be the best. To my surprise the 5/16th chuck broke in half after only a few hours use. I am sending it back and hope it is replaced, however my concern is more bits break as this one did as I start using it on more projects.
