

On January 22, 2008, MUTCD (Manual for Uniform Traffic Control Devices) released a new regulation stating that traffic signs and pavement markings on all roads open to public traffic must have increased reflectivity.

January 2012 Businesses are to have an implementation plan established to replace existing non-compliant signs. Four years for implementation and continued use of an assessment or management method that is designed to maintain traffic sign retro-reflectivity at or above the established minimum levels.

January 2015 All Regulatory, Warning, Ground-mounted signs (except street-name) must meet minimum requirements. Seven years for replacement of regulatory, warning, and ground-mounted guide (except street name) signs that are identified using the assessment or management methods as failing to meet the established minimum levels; and

January 2018 All identified street-name and overhead-guide signs must meet minimum requirements. Ten years for replacement of street name signs and overhead guide signs that are identified using the assessment or management method as failing to meet the established minimum levels.

HIGHWAY AND PARKING

- Made from rust resistant material
- Great for long-term outdoor use
- UV resistant ink prevents fading during long term outdoor use
- Signs are made from 85% recycled aluminum

Standard Traffic Signs

- G suffix is .040 non-reflective aluminum material with 4 corner holes
- H suffix is .063 non-reflective aluminum material with 2 center post holes

Reflective Traffic Signs

- J suffix is .080 aluminum material with engineer grade prismatic reflective sheeting with 2 center post holes. Signs provides added visibility in low light conditions. Handicap signs are MUTCD compliant.
- K suffix is .080 aluminum material with high intensity prismatic reflective face and has 2 center post holes. Complies with new MUTCD Regulation for Traffic Signs on all roads open to public traffic. High intensity prismatic sheeting is over 3 times brighter than standard engineering grade sheeting.
