

SOLUTIONS FOR A DROPS FREE ZONE.™

**THE COMPLETE GUIDE TO
OBJECTS AT HEIGHTS SAFETY.**

WWW.ERGODYNE.COM

WANTED: KNOWN KILLERS

RESPONSIBLE FOR HUNDREDS OF DEATHS ANNUALLY

A tape measure is nothing to be scared of, right? Wrong. When dropped from heights, this thing may as well be a falling machete. In some countries, dropped objects account for over 5% of workplace fatalities – deaths that could have been avoided if the proper training and prevention programs had been in place.*

As a global pioneer, innovator and leader of all things objects at heights, Ergodyne stands ready to serve your training and equipment needs. To start a prevention program, answer questions or find out where to buy, email orders@ergodyne.com.

*According to the Bureau of Labor Statistics, 247 worker fatalities occurred due to a falling object from heights in the U.S. in 2015.

**PLAN YOUR WORK.
WORK YOUR PLAN.**

TOOL TETHERING KITS

Choosing the safety solution that will best prevent dropped objects can be more confusing than reading a half-drawn map. That's why the Squids® Tool Tethering Kits are the whole at-heights kit and caboodle. Pairing existing Squids® tool attachments and tool lanyards, workers can choose a tool tethering kit and be confident they've got exactly what they need for comprehensive dropped object prevention.

THE ANATOMY OF AWESOMENESS:

THIRD-PARTY CERTIFIED WEIGHT RATINGS

Squids® Connectors are third-party certified with a safety factor of 2:1 to ensure the utmost security. Connector systems applied with more than one component are tested and certified together as a system. We don't have to, but we do!

SECURE HARDWARE

Fully-enclosed plated hardware has no weak point. Made of durable metals that last, they are neither bent nor welded, giving you confidence in the security of your retrofit connection.

DURABLE SYNTHETIC MATERIALS

Squids® Tool Tails™ and Tool Traps are made with high tensile strength webbing and abrasion-resistant fabric to hold up in the toughest applications and prolong the life of the connector.

RETROFIT CONNECTOR VARIETY

We study and teach tool anatomy to give you options to retrofit connection points on tools that need 'em. One-step Tool Traps with built-in connection points attach directly to the tool. A two-step systems uses a Tool Trap to capture a Tool Tail™ connection to the tool.

FUNCTIONAL MATERIALS AND DESIGNS

Squids® Tool Connectors are designed to NOT sacrifice your tool's primary use. Tool Traps and Tool Tails™ can be placed on the tool, leaving mission critical parts of the tool ready to use. Specialty materials enhance grip and do not leave messy adhesives or residue on your tools.

KNOW YOUR TOOL TYPES

THIRD-PARTY CERTIFIED WEIGHT RATINGS

Squids® Lanyards are dynamically drop tested and third-party certified with a safety factor of 2:1. We don't have to, but we do!

CARABINER VARIETY AND SECURITY

A variety of carabiner options give you what you need for your environment - lightweight aluminum, stainless steel, non-locking, and self-locking are some of the options available to give you jobsite flexibility.

SHOCK-ABSORBING PROPERTIES

Elastic models exhibit shock-absorbing properties, limiting the force the body or other anchoring points feel when a drop occurs.

TREADED LOOP ENDS

Treaded loop ends hold a better grip on tools and last longer than rounded string-like loops.

MAY THE FORCE NOT BE WITH YOU

Ergodyne Squids® Tool Lanyards are scientifically engineered to reduce drop forces and prevent workers from being pulled down when they drop an object. When you choose an Ergodyne lanyard, you're choosing superior materials and performance developed and tested (hundreds of times) to be the best – hands down. As you can see below, the results speak for themselves. Don't believe us? Visit www.ergodyne.com and click the WATCH tab to see this drop test with your own eyes. No smoke and mirrors here.

OURS ARE BETTER. PERIOD.

ABS THERMOPLASTIC HOUSING
Outer shell of retractor holds up to the elements and the beating it takes hanging on to the tools you cherish.

SELF-SETTING LENGTH
Self-setting pawls set desired lanyard length and use a safe one-handed operation to release and retract back into the housing.

MODULAR DESIGN
Tool Tails™ connect to various tools and exchange quickly and securely, allowing you to use multiple tools without making a tangled mess.
