#### STANDARD SETS: Nos. 11, 13, 15 Packed in 15-compartment plastic case

Here's all there is to it . . .

**3 SIMPLE STEPS** 

for removing broken taps the easy way

Thoroughly remove all chips of the broken tap. Insert the extractor fingers into the flutes of the broken tap, pushing them gently but firmly into position.

Push the holder down until it touches the broken tap. Slide the sleeve down until it touches the work. (Both are important.)

Apply a tap wrench to the square end of the holder. Twist forward and backward a few times to loosen, then back out the broken tap.

## UPC No. 054808 SINGLE UNITS and REPLACEMENT PARTS

EDP Part No. shown indicates available flute style for each size. WALTON Tap Extractors, designed to fit all wire screw thread insert STI taps, are stocked in the standard sizes and flute styles shown above.

#### Refer to Ordering Information below.

## **IMPORTANT ORDERING INFORMATION FOR ALL WALTON TAP EXTRACTORS**

- 1. Do not use the abbreviation "EXT." on your orders. This could refer to either "Extensions" or "Extractors."
- 2. All orders for complete Tap Extractors and all replacement parts must clearly specify the flute style required. Each table shows, by size, the flute style for which that size is standard. Parts are not interchangeable between the different flute styles.
- 3. Sizes and styles not listed are considered specials and will be quoted and made on special order. A sample tap must be submitted and will be returned to you with our quote.
- 4. When ordering replacement parts, refer to the parts illustration on page 2 for correct part name.
- 5. Standard Sets contain sizes and flute styles as shown on page 3. Order by Set Number. Sets containing the same sizes but in non-standard flute styles will be made up on request at no extra charge.
- 6. Orders for Pipe Tap Extractors and replacement parts must clearly specify "Pipe Tap" and indicate required flute style.
- 7. Orders for STI Tap Extractors and replacement parts must clearly specify "STI" (Screw Thread Insert) and indicate flute style required.
- 8. Threads per inch need not be specified, as Tap Extractors will fit both NC and NF taps.
